

CONCERNS OF THE PUBLIC

Many of the concerns registered by the public regarding instruction, instructional materials and staff members can and should be resolved by the parties involved. When this is not possible, resolutions shall be sought at the nearest administrative level capable of dealing with the issue. Whenever possible, the relevant staff member shall be consulted and provided ample opportunity to respond to the concern prior to any official action.

Concerns registered directly to the Board as a whole or to an individual Board member shall be referred to the Superintendent of Schools for investigation, report, and/or action.
